

Saalbach Hinterglemm Austria - Julie Jenkins - Incoming and Sales Department Director [youaretube.com]

My name is Julie Jenkins. I am the Head of Department for Sales and Incoming at the Saalbach-Hinterglam Tour Service. Julie, Saalbach-Hinterglam is such a great area.

Tell us a bit about it. Saalbach-Hinterglam is a fantastic area for skiing. During the winter months we have 270 kilometers of pistes.

There's something to suit every ability. We have blue runs, we have red runs, black runs. And also then in summer, this is converted into a fantastic area for hiking and biking.

Okay, so we'll start off with the winter because we've got the winter season coming up. I particularly like the colonized mountain. You can also go up towards the Spieglek.

Or you can do the challenge for those people who really want to make a four-pack day of action. And it's of course then at the end of the day to relax back down at the village at one of the apres ski bars or one of the cozy mountain huts. And tell us about some of the fantastic events you have through the winter.

I believe you've got some very big ski races. We've got some great events. We're kicking off with two winter events.

In December, that's Raven Snow and Berg Festival. We also host World Cup ski races. And we're actually a candidate for the World Cup Championships in 2023.

Fantastic in the summer. Of course, all these ski pieces converted. We've got mountain biking trails.

We've got bike parks. Fantastic places where you can go out with the family, like the Montolino, the Adventure Path, Bear Cordak. At the end of the valley, we have the High Ropes Garden, Golden Gate Bridge, and the Tree Top Path.

So there is plenty to do for young, old, small, or large. If you'd like to look at our website, it's www.saalbach.com. On this website, you'll find all the information you need for summer or winter in our region, covering events, all the top events, and also the interactive cards for hiking and skiing. Julie, thank you very much for being with us on the programme.

Okay, I'd like to say also, feeling dank. Thank you very much.
