# SEANCOYLEEDIT

Travel Radio Australia we're in Khan at the International Golf Travel Market. I have with me Sean Coyle from Sean Coyle Golf Events in the UK and Sean welcome to the program. Thanks for having me Jeff.

Now great to talk to you Sean. Now Sean runs a number of high-profile golf events all across the United Kingdom. First of all tell us a bit about yourself Sean and how you got into this and then a bit about the events.

Basically I've obviously played golf since I was young. I sort of got into the golf business probably 12-13 years ago. Basically set up a membership site in the UK of England and the north of England.

Well it was called Golf Membership Northwest and it was basically like a go-compare website for people who wanted to join a golf club and so that's how I sort of got started in the golf business. I was in retail for many years before that so I always had the sort of the sales background. After doing the golf membership for a couple years I came up with the idea to do a few events and obviously a set up an event up in Southport.

The Southport Coast Championship over five of the biggest courses in the north of England and it's now probably the biggest event in the UK. We have 156 golfers participate every year. They've done so well the first couple years and then I've just moved on to different regions and got quite a quite a big portfolio now.

Tell us about some of the other events around that you've done the high-profile ones. You were all over the UK at the moment. What's what's happening? Yeah so yeah obviously the Southport event was going to be a big event for just a year or two and then I moved on to like South Wales so we do a big event down South Wales, Royal Porthole, Pannard, Top Courses.

I do Aberdeen Championship now. We do two up in there one in April one in the end of September where obviously we play obviously not everyone's favorite man the Trump courses but they are fantastic courses, Cruden Bay and Royal Aberdeen. So we have two up there as I said April and September and then we do obviously I'll do a little bit of an Ireland.

We do two events over there now. We do a Pears event and a Singles event, a fantastic location Rossa Pena where we have three golf courses on site all fantastic courses and we tag Ballyliffen onto that. We have the Irish Open again amazing golf courses so that take care of that and then obviously back in England we've got the Devon Coast Championship, Thornton Golf Course and Royal North Devon.

I have my Sandwich Coast event which is another open venue, well three open venues, Royal St. George's, Royal St. Porths and Pinsons. Yeah that's that's also the UK keeps me busy here so.

One of your events is one of my favorite areas where I grew up in Kent actually and tell us about the Kent connection.

Yeah so I set up the Sandwich Coast events probably pre-COVID. I've done that a couple years and then obviously we didn't stumble because obviously when they were due to have the open I think 2-5 and 21 it was cancelled the first year because of COVID. I haven't done the Sandwich Coast for a few years but I've just revisited again this year and it looks like it's going to be another success.

We've got a full field so that's just going to be an ongoing event again so it's always nice to get back down to that part of the world yeah. Tell us about your your background. You were in retail but in Liverpool area where you're from obviously because of your accent did you discover golf at a really early age or how did that work? Yeah I started golf when I was well quite young I joined like like most people do I joined a municipal golf course when I was like 12-13.

I built a golf course where I was sort of living and yeah played golf for quite a few years never ever thought that I was never very good at it I was okay but then obviously I got into the retail section of work and that's what I was doing for a long time and then obviously the kids come along didn't really play much golf I sort of got back into the golf and me 30s and then I sort of got 30 40s and then I sort of came up with the idea for the golf and the last 10 years it's been pretty good to us yeah. Great now how can we find out more about Sean Cawg golf events online Sean? If people just put in Sean Cawg golf events I'm not saying quite high up on Google but there's quite a few pages with Sean Cawg golf events but also we have a website called the Southpaw Coast Championship.co.uk which was obviously the very first event I did which was a big event so that is basically a portal for people to enter the event it's like an online service so you can go on to Sean Cawg golf events but obviously we have got the Southpaw Coast Championship where people can just enter online there and obviously you can we do stuff you know in Algarve and Dubai as well so you can enter there as well. And I always ask this give us a couple of your favorite destinations and must see things to do over the last few years that have really blown your mind.

Just going off these off the portfolio I've reeled off I mean the golf courses we use are all top-end courses so it's very hard to pick a favorite golf course but picking an obviously a venue I love going to is Rosapenna and Ireland because it's the time of year we go the courses are fantastic the Irish people obviously fantastic we're actually Jeff's actually doing this interview. In amongst all the Irish tour it seems poignant that I'm talking about Ireland but yeah going to Ireland is always on the bucket list because we got we the time of year we do it in June the courses are great the lights fantastic the Guinness is quite good as well. Well thank you so much Sean for making the time to speak to us here at the International Golf Travel Market in Khan and Sean Cawg golf events and thank you very much for being a program.

Thanks very much Jeff thanks for taking the time to speak to us here
