ANNAMARIEGERMANEDIT

Travel Radio Australia and we are here at the International Golf Travel Market in Khan and I've run into a lovely lady called Elsa Maria Honecker and she's German but spent a lot of time in Austria as well and Switzerland. Elsa Maria welcome to the program. Oh thank you, thank you for welcoming me.

Now Elsa Maria your background you were telling me before you had a big radio background didn't you in Germany and Austria tell us a bit about that. Yeah it was really funny because my voice yeah my voice was was well known by broadcasting and making it advertising for a film. You were voice over writers for film.

Yeah for cinema for the cinema yeah and it was so funny because this was starting my career for broadcasting. Yeah at this time it was at the end of the 90s so they were very very often private radio stations in in growing up in in Germany. I have no idea about also in Austria but in Germany especially and around Bavaria where I'm living yeah I'm living between Munich and Salzburg so in the border yeah we get an education for it yeah and so my my professional name was radio coordinator a private radio coordinator so it means I can do interviews I can do music I can do speaking yeah making and and you can do one session for yourself in the radio yeah so this was the beginning.

Well that's fascinating because I mean radio in Europe used to be very much state-controlled with very few radio stations and then suddenly in the 90s it all exploded didn't it. Yeah it was in this point and we were I think we were the first in Bavaria in in Rosenheim this is one of the biggest city in Bavaria and then if we absolved this our education our trainings as well they caught us from other radios please help please help because we will start at 6 6 hour on the 60 in in June maybe yeah and so we were there and we're helping them and so it was it was a nice relationship between all the radios. Now we're here at the international golf travel market what is your connection with golf how do you fit in here? Yeah it is interesting because I was one of the first ladies writing about golf also in the 90s yeah and and then I make my made my license for golf this is a really hard job in in German and Austria at this time it was in Austria and then yeah it I was I want to write in a golf for a golf magazine and they told me please no spa no wellness only golf so mostly of my colleagues were men yeah yeah now if you're writing now for golf they want to do it emotionally you know that you write oh this is was really hard for me to take this to take it over over there the dog leg the ball over the dog leg and it was very hard to to go straight over the water and what what I'm feeling at this time yeah so now it changed a little bit yeah but I'm writing for golf magazine and also for lifestyle magazines and there will be always a part for a special luxury resource with golf yeah and now important point is a longevity yeah golf and having wellness beside yes wellness and lifestyle is number one now it's changed just from just from golf and the golf resorts around the world and and all sorts of resorts have just gone into the wellness and that sort of thing is a number one priority now you're also telling me about your time in

Switzerland and I think your base there a bit now and I am originally from Austria so this is my homeland and especially the part of South Austria this Sturia and we have the awarded Sauvignon Blanc nobody knows it so much because I'm very proud of it for Switzerland I'm writing for a Swiss magazine I do it very lightly to it because we have a broadcast so we have a travel talk about our stories so we have many a lot of things around this magazine yeah I'm staying in Bavaria and they would not like to leave Bavaria I only go to Zurich for such events but staying in Bavaria and I love Vienna because one of two magazines are issued in Vienna so I can visit my colleagues yeah now your area Bavaria is so famous for Oktoberfest and all that sort of thing but there's so much more to Bavaria than just that isn't there can you tell us some of your favorite locations and things to do in Bavaria for someone who's never been there before yeah where I'm living this is a big lake it's the biggest lake in Bavaria it's called Kimsey it's called Kimsey and on this big lake are two islands one island is here in Kimsey with a famous King Ludwig Castle yeah unfortunately the king was only 60 days in his castle and then he died yeah it's a little bit yeah and on the other island is a monastery very well known they makes the best liquor liquor with their herbs in the garden and you see the nice ladies walking in the garden preparing the roses and so on yeah and then we have on one side the lake are mountains you can go for skiing for hiking and doing it's an area for many sports yeah sailing surfing kite surfing here on the lake and skiing and hiking in the mountains yeah yeah it's a stunningly beautiful area and I the sound of music movie was filmed around there wasn't it music I think it was in Salzburg yeah Salzburg which is half an hour away yeah and Salzburg is for for having culture for concerts for festivals it's pretty and on the other side one hour away is Munich also with culture with culture in the big big tradition with beer and festivals and and also museum so they have we have now I think 20 museums in Munich with different different exhibitions and we have a night a special night where they all museum had had have open yeah so can go during the night time the museums and so and this is really nice because to bring young people to the museum yeah also to the exhibitions yeah it's the best way Bavaria is a lot on the trip on the bucket list of many many Australians and they they love to go there and they love to experience and the food the Bavarian food and the sausages are fantastic and that's what you're famous to the dumplings yes tell us a bit about that dumplings yeah the dumplings as a we have a special menu this is Schwein Spratt yeah it is for form a peak yeah in Bavaria it is it is very important to have big portions yeah big portions so many many people they are visiting Bavaria there really fell in love with these big portions we have the dumplings and also schnitzel schnitzel yeah it's very one and a fresh total after so is a sweet one yeah you put it in in in yeah oh yeah the pastry roll yeah yeah yeah and of course the big liters of beer I mean the beer is the beers are enormous there we have we have very big breweries and on the other side especially in in this small villages round money we have private breweries and they make a fantastic beer because they have a special smell on the special taste yeah you cannot find in the big ones yeah so we prefer to buy our beer in the small ones yeah yeah and they have they have the small bottles yeah you can take it in your hand and you need no glass yeah you have it for a short drink and then we can't not mention the fantastic wineries you have in the Bavarian area they're just gorgeous yeah especially in Frankin we have the

Frankin wine Munich no and also the southern part of Bavaria no but Frankin and a little bit higher to direction Hessen there's a big big wine fields yeah but I prefer the Austrian wine and a lot of us Australians go to Amsterdam and get on the boat and travel down the Rhine which is just gorgeous you can go to those stunningly beautiful little towns like Lubeck and all those beautiful places Bremen or Hamburg even Hamburg is my favorite because for me is Hamburg yeah one of the main capitals in in whole Germany yeah because it's an elegant city elegant city it's really different to Berlin you know Berlin is and and it's the history of Berlin too is incredible isn't it I mean it's a it's a living museum in itself yeah the funny things are when they see travel radio Australia when I was I was working for a travel magazine we are in also in the 90s and whenever they got maybe to South Africa they're always white Australia because they have no idea about Austria when they're working for Austrian yeah it was oh you are coming from Australia our nice with a long way to come here you just an hour it's funny well it's been wonderful having you on the program Elsa Maria Honecker from Germany and can you give a website if people want to visit you or one of the projects that you're involved with yeah you can find me for the Swiss magazine looking time find me my name and season season driver dot-com or a connoisseur circle you have see circle dot-com or you have a rice and on golf in DDE yeah so it's a few few of my websites yeah thank you very much for being on the program and Danke schon as we say I was you say and it's been lovely having you and and can you say hello in German to our German speaking Australian listeners out there then we say samples that's all we need thank you and have a great have a great day
