

RAHIMUDDINJTRHOLIDAYSDUBAIEDIT

Travel Radio Australia, we're here in Brisbane, Australia and I've run into a very interesting a guy Rahim Uddin from Dubai and Rahim is with JTR Holidays Dubai. Rahim, welcome to the program. Hi, thank you so much to having me.

Rahim, basically I'm from JTR Holiday. I'm the CEO and co-founder of JTR Holiday since 2018 and we are a Dubai based inbound and outbound tour operator doing both inbound and outbound tours, activities, experiences. The only things which we don't do is the visa and flight.

Rest everything from arrival to departure whether it's experiences, attraction, multi-day tours, complete holiday packages, event arrangement for both FITs and groups. It's a wonderful service that you have JTR Holidays and I've been wanting to go to that magnificent Snow Centre you have in Dubai now. That's absolutely huge, isn't it? Yeah, the Ski Dubai, you mean, right? Yeah, yeah, Ski Dubai is an indoor resort.

JTR Holiday is proudly the official partner of Ski Dubai and now they also open one in Abu Dhabi as well which is known as Snow Abu Dhabi. Like that is a completely indoor resort where you can take the chairlifts and different slides and also best for the skiing lover as well. Now Dubai is a magnificent hub for travel right through the whole Middle Eastern region, isn't it? I mean the airports there you get such huge amounts of people coming by not only just maybe stopping for a few days too on their international holidays.

That's really true, yeah. So basically Dubai regarding the arrivals I think it's around 20 million a year approximately which we can say like around 50,000 tourists arriving Dubai every single day on an average basis. Because since Dubai is also a connectivity hub so for that I think it's the passengers are around 70 to 80 million over a year because you know there are a lot of passengers who are just stopping by a stopover or they are connecting and taking their next flight from Dubai because Emirates and other airlines are taking the stopover and then they go to the next destination, yeah.

And speaking of that the airport itself is just a magnificent, it's like a mini city, isn't it? It's a crazy experience. Yeah and the good news is now Dubai, the new plan which they recently started the new project, Dubai new airport. So that's going to be the world's largest airport and they are going to build it.

Expected opening date is 2032 for that one, yeah. A few of your favorite experiences, I'll ask you for three. What is your favorite things to do in Dubai? For someone who's never been there what would you highly recommend? I think in Dubai there is so many activity tours and activities so to cover everything it's quite difficult but the one who are visiting Dubai for the first time what I would recommend them a city tour, Dubai city tour, a Budapest city tour, a desert safari, very famous, one of the most favorite activity of all tourists and a Dhow dinner cruise.

That is must. Burj Khalifa, yeah people like it but sometime because of the long queues people don't like it that much but still since it's a one of the iconic building in Dubai so still people even with those hurdles still people like to do the Burj Khalifa. The top picks are the city tour, Dhow cruises, desert safari and if you're okay with the queues and everything Burj Khalifa.

That should be on your list, yeah. If you are visiting for the first time. What's the best time to go? I suppose we get a lot of visitors coming down here from Dubai to Australia in our winter time and I suppose it's a bit cooler in certain times of the year to ride in Dubai.

Yes, correct, that's correct, yeah. So the thing is it different like even in summer time there are a lot of travelers so those who are low on budget obviously for the best time is from October till April that is the best and ideal time because in terms of the weather and everything but there are a lot of tourists who want to take advantage of the summer because you will get a lot of discounted prices, promotions. Definitely from 1st May to 30th of September that is the summer season and and of course and one more thing because some of the people who are from the European country or other country and most of the time they have snow and cold weather so so they like the hot weather as well like they enjoy the beaches, the swimming pools and so many things but August and September because of the humidity even that is that is not the ideal time but the rest of the time yes it's manageable.

And I know there's some fantastic huge events during the year, tell us about a couple of the major events that you have there that everyone goes to. From tourism perspective we have this ATM, Urban Travel Market, that is for the travel industry partners, hotels and all the hospitality sector they cover everything while for the rest of the time there is Dubai Shopping Festival where like currently the the current offer which they have like if you buy something equal to 500 ADR above you get a chance to win a property in Dubai and then there is other DSA then there is Diwali and so many other event which different people like to visit Dubai and experience it. I'm speaking to Rahim Udin from JTR Holidays, how can people find out more about you online? So JTR Holiday we are one of the top rated company in Dubai, when you type us in Google JTR Holidays it's Joliet Tango Romeo JTR Holidays or either you can directly visit our website www.jtrholidays.com where you can find experiences, activities, city tour, holiday packages, you can book activities and attraction on the last moment and get e-tickets on the spot within 5 to 10 minutes and more importantly if you need a customized packages or activities you can just approach our team 24 by 7 and they will assist you whatever you need and we can help you on all the attractions and activities.

Rahim thank you very much for being on the program it's been great having you on Travel Radio Australia. Thank you so much, thank you so much for having me and it was lovely meeting you, thank you so much.
