STEPHANMYGOLFCONCIERGEEDIT

Travel Radio Australia and we're at the International Golf Travel Market here in Khan and I've run into Stefan Gertler from my golf concierge based in Austria and they do trips all around Europe and it's a fantastic way to see Europe if you want a bit of a guide to some of the most spectacular places. Stefan, welcome to the program. Thank you very much, I'm very excited and thankful to be in your show today.

First of all a bit about yourself, how did this all come about? This is actually a long story. When I went to college, now more than 20 years ago, I wrote my final paper, a thesis about incoming golf tourism, you know incoming to Austria, which at that time didn't exist. That's kind of how the story started where I thought, well, you know it's my home country and it's a great destination.

We have great golf courses but nobody is offering inbound trips. So now when you fast forward to 2024, now I started my own company and I'm just doing exactly that. Well it's a great service that you offer and I suppose you get people from all over the world coming to see you and and be hosted by you.

Well absolutely, you know, like you said it's a great destination and so the actually the first international group that I had was Americans that came to Portugal, now my second group that came were eight people from Singapore that came to Austria to experience everything that Austria has to offer. So it's really a destination for no matter where you live, if you come to our place, you're going to have something interesting to discover. Now I know the mountains quite well because I lived in St Anton for a while, for about six months working and living there and it's a beautiful part of the country, especially the mountains in Austria are so spectacular.

Well absolutely, there's no question about it. You know, I lived in Switzerland for four years and now I'm back in Vienna or Austria where I'm originally from and the thing isn't part of how I came up with this idea is that many international travelers that love Austria love Switzerland but when you think of these destinations they think about skiing at the mountains and they don't think about golf and again this is basically where I feel like where my idea comes in that people that play golf and go to these destinations, they definitely have to bring along their golf clubs and play a few rounds on great golf courses. That's just it, especially in Switzerland places like Gestard and all those kind of places, they have big golf tournaments in the summertime when the snow goes away the golf kicks in.

One of the most famous ones is in Grands-U.S. Switzerland, which is home of the america european masters and from what I know if I'm not mistaken except for the masters at Auguste national it's the ski tournament that has been played on the on the same course for the longest time anywhere in the world so there's great history going back I don't know 70 or 80 years so it's certainly a historic course located in the swiss Alps that's definitely a course that every avian golfer should have played at least once. A couple of your say three of your absolutely must-see

destinations that that you take people to that you you tell them you just cannot miss. You know the area or the region that I've worked with has so much to offer it's pretty hard to narrow it down.

If you if it's only three obviously we have to be one place in in Switzerland like I said probably concierge if you want to play golf then a lot of Salzburg Austria which is just a fantastic city which is also great golf courses nearby and it would probably be a toss-up between either Munich Prague or Budapest you know we have so many cities that are so close to each other so there's plenty of places to go to and no matter you go you're not gonna you're gonna be in a great place for sure. It's Stefan Gertzler from my golf concierge in Austria. How can people find out more about you and about the services you offer online? It's actually pretty easy all they have to do is go to my golf concierge.travel that's also get a one word my golf concierge.travel. Thank you so much for being with us.

Can you say in Austrian or German hello to all of our Germans and Austrian speaking people in Australia? Thank you. Thank you Stefan. Have a great day.

Thank you. Appreciate it.
