

goldentous

If you're visiting London over the next 12 months, there is a pass you can get to help you get around the city's most famous attractions. We find out more. Travel Radio Australia, and we're here at the World Travel Market in London, and I've run into a great guy, Dylan Marjithya.

That's the perfect way to say it, Marjithya, yes. Marjithya, and Dylan is the area sales manager for a fantastic company called Golden Tours where you can experience London and the entire UK. And basically, it's a one-stop shop.

So if you're coming to the UK, tell us about some of the tours that you include on your packages, Dylan. We've been around for over 40 years. We're UK's largest sightseeing company.

Like you said, it's a one-stop solution for all tourists coming in. Our main products start with coaches that lead to all the different destinations in the UK. Wins about Stonehenge, Cotswolds, you name it, and we'll take you there.

We've also got the largest supply of attraction tickets. We're also running our own fleet on the afternoon tea buses. Whether it's hop-on-hop-off as well, on open-top buses, you'll get your different packages that people can book.

We also run our private groups and VIP travel, several different segments of the business. No matter if you're a small group or just a couple coming into the UK, we can sort everything out for you. It's a fantastic service because the myriad of things on offer in the UK is enormous.

And if you had to do it yourself, you're going to be wasting an awful lot of time. With Golden Tours, it's a one-stop shop, as we say. And some of the people who come in, what are the reactions of the tours that these people do? They must have a wonderful time with you guys.

Of course. I mean, if anyone does want to check, feel free to check all the reviews you get for Golden Tours online. So our busiest tour will be the Christmas Lights tour, where we show you all the Christmas lights that are lit up in London.

The best tour, I think, out there in this season, I think 99% of the people who have come, it's been a positive experience, and the 1% is those of us that work during the Christmas lights, only because it's so busy so we can't see our families. But other than that, it's a great show to come to. You've got all the Oxford Street, Regent Street lights in London, absolutely beautiful.

And the other thing, summer in the UK is such a beautiful time to be here in the UK. And tell us about some of the activities that you cover there. Yeah, so the main thing you need to know about the summer in London is everything is extremely busy.

We've got our latest product, which is the Golden Pass. It's one pass for everything someone would want to do in London. So we're the only company that includes all the Big Five Merlin

attractions on our pass.

So whether it's London Eye, Madame Tussauds, London Dungeon, Shrek's, or Sea Life, you can get that on the London pass. On top of that, what we do is include our own products as well as an option, our own afternoon tea, our own Christmas Lights tour, or our own London by Night tour as well. That's included on the pass as well.

The pass is valid for 30 days, so it's not that you need to book everything at once. You pick and choose what you want to do when, and as long as you do it within 30 days, you're guaranteed a great time. I'm looking here at the afternoon tea bus tour where you sit on a beautiful bus going around London and you have a gorgeous table.

It looks like a really first-class VIP experience there. It is indeed. It's basically a restaurant on a moving bus.

Everything sorted for you. There's nothing better than doing a lovely afternoon tea in London. We have our own kitchen, so everything we're getting through is fresh, and it's made for your standards.

So whether you have different battery requirements, we cater for all there. Currently, we've got a new IP. We work with Snowman.

So we've got the new Snowman afternoon tea bus tour that starts on the 22nd of November. And it's just a different experience to anything anyone else has ever done in the UK. And I notice here you've got the Warner Brothers Studio Tour in London, which you can see the whole Harry Potter experience.

That looks great. We're the main transport partner for Warner Brothers themselves. Even if you go onto the Warner Brothers website, you'll see that Golden Tours is their preferred partners.

The difference between us and anyone else is we'll actually start your experience when you check in with us. We show you one of the Harry Potter films on the way to the studios as well. You get to spend about three and a half to four hours inside the studios.

If you've never been to the Warner Brothers Studios and Watford's, you're definitely missing out. And then, obviously, it's another journey back where we show you the movie again. So basically, a one-stop solution for all.

That's great. And the sightseeing tours include places like Stonehenge. What an iconic place to visit, and you could take people there in comfort and luxury.

Correct. So our coach tours are actually catered for anyone and everyone. Most people have an interest in architecture with lovely buildings and stones that have been left there for centuries.

Those who are more interested in history, we have different tours for those. Even if you're a young couple that just wants a tick and checkbox tour for the day, our most popular quick tour is Winds About Stonehenge. So we cater for all your requirements.

Coach tours are usually full-day. You start early in the morning at our office in Victoria, and you finish late in the evening at about 6.30 or 7 o'clock at Gloucester Road. We also run a few half-day tours to Stonehenge and Windsor, so it just depends what you're actually looking for.

It sounds like a fantastic system, and the great thing about the Golden Pass, as you say, it's London's all-in-one sightseeing ticket. That's your slogan. Indeed.

That's our own pass. It's our baby at the moment. We make sure everything and everyone who uses the pass has a great time.

It's more catered for those that need a bit more flexibility rather than pre-booking every minute of the day in London. As we know London, how busy it is, how the traffic works, and how long it takes to get from one place to another, the Golden Pass gives you that flexibility to say, if you're tired on one day, it doesn't matter, you'll do it the next. So that's the flexibility option you have.

Now, Dylan Magethia, the area sales manager for Golden Tours UK, and what is some of, just one or two of your favourite, favourite things to do that really stand out for you? I think everyone who does come to London, the one thing they always want to see is the changing of the God ceremony just outside of Buckingham Palace. If you're in Windsor, we do the changing of the God ceremony outside Windsor Castle as well. Whether you're a kid that doesn't know what's happening, you'll enjoy the music, you'll enjoy the procession.

With our open-top packages, tours like this that everyone has to see and we want them to see are included for free. So the walking tours, whether it's Jack the Ripper for a scarier kind of experience, or whether it's the Royal Walking Tour that tells you everything you need to know about the famous royal family, we do that for you. So my favourite, definitely the changing of the God ceremony.

Thank you so much for providing this service to the visitors of London and the reviews you're getting are absolutely fantastic for Golden Tours and the Golden Pass. It's a great, great thing to do. And how can people find out more about you online? The main way is the website, Golden Tours.com. Come visit the site, see what you want to do.

If it's something that you want to do and we don't provide for, send us a quick email or chat to us on our website and we'll make sure we get it done for you. Dylan Magettier, thank you very much for being on the program. It's been a wonderful insight to the delights of London.

Thank you very much, sir.
